

EXECUTIVE TECHNOLOGY PROPOSAL

ENTERPRISE SOFTWARE & DIGITAL ARCHITECTURE

TeqMates

Digital Solutions Provider

Architecting next-generation technology solutions — spanning high-performance web platforms, cross-platform mobile apps, and full-scale enterprise software. Whether foundational tools or complex hospitality management, we deliver resilient, high-impact systems.

Custom Engineering

Tailored web & mobile architectures built for scale, security, and speed.

Resort & Hospitality PMS

End-to-end management covering reservations, billing, accounting & GST.

Modular Flexibility

Pay only for customer-needed modules with transparent, one-time licensing.

FLAGSHIP ENTERPRISE SOLUTION

Complete Hospitality & Resort Management

An integrated, all-in-one ecosystem engineered to streamline front-desk operations, automate billing, and deliver superior guest service.

Booking & Reservation

- ✓ **Room Bookings:** Single & multi-room reservations with instant confirmation.
- ✓ **Live Availability Grid:** Real-time status visualizer across room types.
- ✓ **Advance Deposits:** Automated tracking and adjustment at checkout.
- ✓ **Guest Profiles:** Stay history, preferences, VIP tags, and total lifetime spend.

Checkout & Billing

- ✓ **Pre-Checkout Audit:** Housekeeping & room inspection clearance validation.
- ✓ **Unified Folio:** Auto-aggregates room tariffs, F&B, spa, and services.
- ✓ **Split Payments:** Multi-mode settlements (Cash, Card, UPI, Corporate).
- ✓ **B2B Billing:** Corporate invoices with company GSTIN and tax breakdowns.

Inventory & Asset Control

- ✓ **Multi-Location Stock:** Track Main Stores, Kitchens, and Housekeeping linen.
- ✓ **Purchase Orders:** Direct PO generation, vendor approval, and goods receipt.
- ✓ **Fixed Asset Registry:** Equipment serial tracking and depreciation logs.
- ✓ **Variance Audits:** Auto-calculates stock consumption vs. physical counts.

Food & Beverage (F&B)

- ✓ **Digital Restaurant Menu:** Dynamic categories, daily specials, and pricing.
- ✓ **In-Room Dining:** Orders instantly billed to guest room folios or tables.
- ✓ **Recipe Engine:** Food preparation auto-deducts kitchen raw ingredients.
- ✓ **F&B Analytics:** Fast-moving items, daily covers, and margin reports.

Services & Housekeeping

- ✓ **Service Catalog:** Spa treatments, guided tours, laundry, and transport.
- ✓ **Staff Task Board:** Assign cleaning with priority tags and SLA timers.
- ✓ **Real-Time Room Status:** Clean, Dirty, Inspected, and Out of Service.
- ✓ **Seamless Billing:** Completed service charges auto-post to guest bill.

Employee & HR Management

- ✓ **Attendance Tracking:** Digital shift clock-in / clock-out logging.
- ✓ **Leave Management:** Leave requests, multi-level approvals, and balance logs.
- ✓ **Payroll Processing:** Monthly wage calculations, deductions, and pay slips.
- ✓ **Role-Based Access:** Granular permissions per staff member across modules.

COMPLIANCE, INTEGRATIONS & MOBILITY

Financial Intelligence & Channel Distribution

Enterprise accounting, strict Indian GST compliance, multi-property oversight, and real-time OTA synchronization.

Built-In Accounting

- ✓ **Double-Entry Ledger:** Automatic balanced journal entries for all sales.
- ✓ **Chart of Accounts:** 42 pre-configured ledgers spanning 7 core groups.
- ✓ **Financial Statements:** Real-time Profit & Loss, Balance Sheet & Trial Balance.
- ✓ **One-Click Export:** Export clean records to Excel, CSV, or formatted PDF.

India GST Tax Engine

- ✓ **Smart Tax Slabs:** Automated tariff-based 5%, 12%, or 18% CGST/SGST/IGST.
- ✓ **ITC Tracking:** Input Tax Credit tracking on vendor purchases and expenses.
- ✓ **RCM Support:** Comprehensive Reverse Charge Mechanism compliance.
- ✓ **8 Statutory Reports:** Ready-to-file B2B/B2C, HSN/SAC, and ITC summaries.

Executive Reports & Analytics

- ✓ **Live Executive Dashboard:** Real-time RevPAR, ADR, and daily revenue.
- ✓ **Audit Trail:** Tamper-evident activity logs recording every system action.
- ✓ **Operational Insights:** Predictive occupancy curves and peak demand periods.
- ✓ **Instant Alerts:** SMS/Email triggers for cancellations and VIP arrivals.

Mobile Apps Ecosystem

- ✓ **Owner App:** Real-time financial reports and approvals directly from mobile.
- ✓ **Staff App:** Housekeeping task updates, room readiness, and guest tickets.
- ✓ **Guest App:** Contactless check-in, dining orders, and amenity requests.
- ✓ **Push Notifications:** Instant alerts for booking changes and alerts.

Multi-Property Management

- ✓ **Centralized Portal:** Manage multiple resorts and hotels from one login.
- ✓ **Group Analytics:** Compare branch performance and consolidated revenue.
- ✓ **White-Label Ready:** Custom logos, colors, and domain per property.
- ✓ **Data Isolation:** Secure data partitioning ensures confidentiality.

Channel Manager Integration

- ✓ **2-Way OTA Sync:** Auto-syncs rates and inventory with Booking.com, Agoda.
- ✓ **Overbooking Elimination:** Live updates ensure zero double bookings.
- ✓ **Unified Rate Plans:** Update seasonal tariffs across all channels at once.
- ✓ **Automated Import:** OTA bookings flow directly into the front-desk folio.

CLIENT-CENTRIC PRICING

Mobile Applications & Modular Licensing

Empower your entire workforce on mobile while enjoying a fair, modular pricing model tailored to your exact operational requirements.

Integrated Mobile Apps

Resort Owner App

Designed for executives and resort owners. Monitor real-time occupancy, track daily cash flow, review revenue breakdowns, and authorize high-value purchase orders securely from anywhere in the world.

Staff & Operations App

Empowers front-desk, housekeeping, and maintenance teams. Staff can update room statuses in real-time, accept guest service requests, log maintenance issues, and track checklists on their smartphones.

Guest Experience App

A branded mobile interface for resort guests. Enables direct room reservation, digital restaurant browsing, in-room service orders, spa bookings, and instant bill previews for seamless contactless luxury.

Transparent Investment Model

CORE GUARANTEE

Pay Only For What You Need

We reject rigid, expensive software bundles. **You pay strictly for the specific modules and sections your resort requires.** Whether you only need Booking & Billing today or a complete ERP with Accounting and Channel Manager tomorrow, your software scales with your business without wasted expenditure.

One-Time Settlement

Enjoy financial peace of mind with a transparent one-time deployment fee for chosen modules. No hidden licensing traps or forced monthly subscriptions — you own your software deployment.

Annual Support & Maintenance (Optional)

Ensure long-term system health, automatic cloud backups, continuous security patches, statutory GST updates, and prioritized technical support with our optional yearly maintenance packages.

REAL-WORLD DEPLOYMENTS

Featured Clients & Live Platforms

Explore a selection of mission-critical web platforms, e-commerce marketplaces, and mobile ecosystems delivered by TeqMates.

AGILE DELIVERY FRAMEWORK

Our Development Process

A structured, transparent engineering lifecycle designed to ensure on-time delivery, robust quality, and smooth staff adoption.

1

Requirement Gathering

In-depth discovery to map your operational workflows, pain points, and specific module needs.

2

UI/UX Design & Prototype

Interactive prototypes and intuitive mockups guaranteeing that staff can use the system with ease.

3

Agile Sprint Development

Iterative development with regular progress updates and demo sessions for continuous feedback.

4

Rigorous QA & Testing

End-to-end functional testing, performance benchmarks, and security validations across all devices.

5

Deployment & Training

Smooth server deployment, data migration, and hands-on onboarding sessions for your management and staff.

6

Continuous Support & SLA

Proactive maintenance, automated backups, and dedicated priority support to keep your business running 24/7.

Ready to Transform Your Business?

Let's architect the right technology solution tailored to your exact scale.
